

The **Public Awareness Manager™** is a web-based tool designed for Pipeline Companies to assist them with the documentation and management of **regulatory and compliance** responsibilities.

It enables you to organize all of your public awareness program information into one easy-to-use and centrally located database that allows you to quickly and easily search, view and manage your data.

- Locate stakeholder audience data (excavators, emergency officials, public officials, affected public)
- Locate and display stakeholder assets (pipelines, centerlines, buffer zones, pipeline segments, etc.)
- Manage stakeholder audiences: add, edit, track all correspondence with stakeholders to maintain a comprehensive audit trail
- Display data layers such as streets, HCAs, Dig Tickets, pipelines, even aerial photography
- Store and access documentation (training materials, sign-in sheets, brochures, etc.) and ink documents, graphics, etc. to stakeholder audiences
- Track and analyze surveys and survey respondents
- Program Summary Reports

CeleritasWorks™, LLC is an enterprise-class GIS development company headquartered in Kansas City. In addition to core IT consulting services, Celeritas offers patented and copyrighted web-based solutions for the Underground Damage Prevention marketplace.
